Gerard – I agree, do the same as the one of As on FB. But not the E mails.

Hi Hennie

Due to the fact that “AMAGP_PROGRESS_REPORT (1)” has already been posted on Facebook, I think we need to also place it on the web page, as was posted on FB, ASAP.

The info placed on FB, Twitter, Web page ect, should always be the same. Any difference would let the Association look “stupid”.

I have attached your original report, the translated and reformatted report (now on FB) as well as a copy of the E Mails between members regrading this issue.

For your approval please

Thanks

Gerard

Daryll – Although there is no place for “progress reports” would it be possible to do one of the following

1. Create a new tab (Progress Reports) and place the report (once approved) under that; or
2. Place it under a new tab under “Media Releases” called “Progress Reports” and place it there.

I would also think, if it is easy, to place a notice on the landing page indicating what has been updated on the site so that visitors can immediately see changes have taken place and then go there either via their own navigation or a link you could place with the notice. I am not sure if this can be done – Just a suggestion. If you need an image to put in the gallery for this then I could help. Juts need to know where you are going to place the report.

Gerard – bestuur het versoek dat ons “wat is bereik deur die AMAGP” op die webwerf plaas. Vir die doel het ek iets aangeheg wat ek onlangs opgestel het – maar nou weer ietwat verander het. David Blyth het dit intussen verwerk en in Eng vertaal – maar voor my aanpassing. Kry dit van hom af en maak dit aub gereed om geplaas te word.
