Hi Daryl

Hope your work is not making you "mad" with all the extra responsibilities this year.

Attached please find part 1 of the AMAGP's report on the GEPF's 2019 AR for placement on the web site.

Maybe we could re arrange the reports on the "report" tab to look like the media releases in due course.(One line for each year which then opens to all the reports for the year).

Could you please this report on the report page and if you think the "rearrangement" can be done it could be addressed later when you have time.

The changes to the on-line membership forms are of a higher priority and I should be finished with that requirement before the weekend.

I only mention this so that you can effective utilise your time for web site changes.

Thanks for your you time and regards

Gerard
